

Innovation's Drug & Alcohol Policy

Innovation is a drug-free environment. The purpose of this policy is to ensure the safety of all students and to promote productivity. This policy applies to all students and visitors. Substances covered under this policy include alcohol, illegal drugs, inhalants, and prescription and over-the-counter drugs.

Definitions under this policy

A "substance" includes alcohol, illegal drugs, inhalants, and prescription and over-the counter drugs.

An "illegal drug" is any substance that is illegal to use, possess, sell, or transfer.

"Drug paraphernalia" are any items used or intended for use in making, packaging, concealing, injecting, inhaling, or consuming illegal drugs or inhalants.

A "prescription drug" is any substance prescribed for an individual by a licensed health care provider.
(Prescribed medication must be administered by the school nurse)

An "inhalant" is any substance that produces mind-altering effects when inhaled.

You are "under the influence" if any substance:

- impairs your behavior or your ability to work safely and productively;
- results in a physical or mental condition that creates a risk to your own safety, the safety of others.

*We reserve the right to inspect our premises for these substances (**"Innovation's premises" include our buildings, grounds, and parking lot*.**) I have read and reviewed the drug and alcohol policy and understand my responsibilities as an Innovation student. I also understand that violation of this policy can result in disciplinary action including and up to a recommendation for suspension or expulsion from the SDT department.*.
